## 2026

DIPLOMA IN CYBER SECURITY  
(ABE UK QUALIFICATION)

Route to the IT World

EC-COUNCIL

C|EH V13

## ■ DESCRIPTION

The Diploma in Cyber Security is designed for individuals seeking a solid foundation in protecting digital systems and networks. This programme equips learners with both theoretical knowledge and practical skills to identify, prevent, and respond to cyber threats in today's technology-driven world.

The curriculum is carefully structured around essential areas including foundations of cyber security, threats and vulnerabilities, access management, network and operating system security.

## WHAT ARE THE BENEFITS IN STUDYING DIPLOMA IN CYBER SECURITY AT ATN?

### 1. Strong Cybersecurity Foundation :

The Diploma in Cyber Security provides strong foundational knowledge in core cybersecurity concepts, principles, and practices essential for modern digital environments.

### 2. Practical System, Network & Data Protection Skills :

Learners develop practical skills to effectively protect systems, networks, and sensitive data from cyber threats and security breaches.

### 3. Hands-On, Real-World Training :

The program emphasizes hands-on training using real-world cybersecurity tools and simulated attack scenarios to build practical, job-ready experience.

### 4. Understanding Cyber Threats & Vulnerabilities :

Students gain in-depth understanding of cyber threats, system vulnerabilities, and security weaknesses that impact organizations across industries.

### 5. Risk Management & Security Planning :

The diploma introduces key concepts of risk management, enabling learners to assess risks, implement controls, and support organizational security planning.

## 6. Study Opportunities :

After completing the Diploma Program, student has the opportunity to direct enroll in our Advance Diploma + Bsc Top up Degree.

## 8. Adaptability and Future-Proofing:

The Cyber Security diploma ensures that you are equipped with the skills. This adaptability is crucial in an ever-evolving technological landscape, allowing you to stay relevant and future-proof your career.

## 9. Cyber Laws & Compliance Knowledge:

Learners gain essential knowledge of cyber laws, regulations, and compliance requirements relevant to data protection and information security.

## ■ COURSE CERTIFICATE

We are accredited and affiliated with the Association of Business Executives (ABE), UK, an internationally recognized, Ofqual-regulated awarding body. This affiliation ensures our Diploma in Cyber Security program meet international quality standards and enables learners to gain globally recognised business qualifications that support career advancement and progression to higher education.

**VENUE - ATN CAMPUS AL BARSHA**

**Address : No 606 Al zarooni building - Al Barsha 1 - Dubai**

## COURSE DETAILS

|                          |                                   |
|--------------------------|-----------------------------------|
| Course Name              | Diploma in Cyber Security         |
| Duration                 | 06 Months                         |
| Classes / hours per week | 1 Class Per Week / 3 Hours        |
| Language                 | English / Hindi / Sinhala / Tamil |
| Certificate              | ABE UK Certification              |
| Class Mode               | Online / In-Person                |
| Practical Training       | Yes Available                     |

## PREREQUISITES

- You will receive a pre-course questionnaire, which should be completed and sent to us. It will help us.
- Adjust the course to your needs.
- It is recommended to have secondary education.

## WHO SHOULD ATTEND

- IT Students
- IT Professionals
- School Leavers
- Everyone who want to make changes that will be extremely beneficial for a company or to explore new jobs in IT.

## ■ WHAT IS CYBER SECURITY?

Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security. Organizations transmit sensitive data across networks and to other devices while doing business, and cyber security describes the discipline dedicated to protecting that information and the systems used to process or store it.

Cyber security is simply protecting critical computer systems and the sensitive information they contain from cyber-attacks. There are many cyber securities works as one to protect an organization such as

- Network security
- Application security
- Endpoint security including Internet of Things (IoT) security.
- Data security
- Identity and access management (IAM)
- Database and infrastructure security
- Cloud and mobile device security
- Disaster recovery and business continuity planning

## ■ WHY CYBER SECURITY IS A GOOD PATHWAY TO CHOOSE FOR ANY STUDENT?

1. High Demand: Cyber Security is a rapidly growing field, and there is a high demand for skilled professionals.
2. Job Security: With the increasing reliance on technology, the need for Cyber Security professionals is growing, ensuring job security for those with the right skills.
3. Challenging and Rewarding: Cyber Security is a challenging and rewarding field that allows you to use your problem-solving skills to protect organizations from cyber-attacks.
